## **Report on review of quarterly information**

To the Board of Directors and Stockholders  
Desenvix Energias Renováveis S.A.

### **Introduction**

We have reviewed the accompanying parent company and consolidated interim accounting information of Desenvix Energias Renováveis S.A., included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2014, comprising the balance sheet as at that date, the statement of operations for the quarter and six-month period then ended, and the statements of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion on the parent company interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information (ITR), and presented in accordance with the standards issued by the CVM.

Desenvix Energias Renováveis S.A.

**Conclusion on the consolidated interim information**

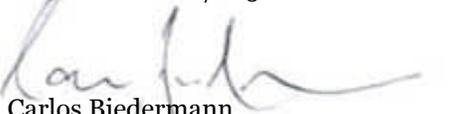

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information (ITR), and presented in accordance with the standards issued by the CVM.

**Other matters - statement of value added**

We have also reviewed the parent company and consolidated statements of value added for the six-month period ended June 30, 2014. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR), but are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

### **(iii) Projects under construction - Transmission lines**

Desenvix has investments in MGE Transmissão S.A. (25.5%), which is in the implementation phase. This line has an extension of 258 km and is expected to start operating in the third quarter of 2014.

## **2 Summary of significant accounting policies and presentation of the Quarterly Information (ITR)**

The parent company interim accounting information included in this financial information is presented in accordance with the accounting standard CPC 21 (R1) - Interim Financial Reporting, and in a manner consistent with the standards issued by the Brazilian Securities Commission (CVM) applicable to the preparation of Quarterly Information (ITR).

The consolidated interim accounting information included in this financial information is presented in accordance with the accounting standard CPC 21 (R1) - Interim Financial Reporting and International Accounting Standard (IAS) 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), and in a manner consistent with the standards issued by the Brazilian Securities Commission (CVM) applicable to the preparation of Quarterly Information (ITR).

Except for the change mentioned in Note 3, the basis of preparation and accounting policies are the same as those adopted in the annual financial statements for the year ended December 31, 2013. Accordingly, as determined in Official Letter CVM/SNC/SEP 03/2011, the Company opted to present the explanatory notes to this Quarterly Information in a summarized manner when there are no changes in relation to the content already presented in its annual financial statements. In these cases, the full explanatory note in the annual financial statements is identified, in order not to prejudice the understanding of the financial position and performance during the interim period. Therefore, the corresponding information should be read in Note 2 - Summary of significant accounting policies to the aforementioned financial statements.

## **3 New standards, amendments and interpretations to standards**

The following new standards, amendments and interpretations to existing standards were issued by IASB and are effective as from January 1, 2014. Their potential impacts on the consolidated financial information are described below. The Parent company's financial information was not affected by the new standards issued by IASB, since there are no corresponding standards or interpretations issued by the Brazilian Accounting Pronouncements Committee (CPC).

- IFRIC 21, "Levies". The interpretation clarifies when an entity should recognize a liability to pay a levy in accordance with the legislation. The recognition of the obligation is applicable only after the related event takes place. The consolidated quarterly information was not affected.
- Amendments to IAS 32 - "Financial instruments: presentation". These changes clarify the meaning of the legal right to settle an operation at the net amount. The consolidated quarterly information was not affected.
- Amendments to IAS 30 - "Financial instruments: recognition and measurement". The changes permit the use of the hedge accounting when creating a new obligation, replacing and extinguishing the previous obligation arising from a derivative designated as a hedge, when it complies with certain criteria. The consolidated quarterly information was not affected.

#### 4 Capital management

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern in order to provide returns for stockholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group can adjust the amount of dividends paid to stockholders, return capital to stockholders or sell assets to reduce, for example, debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio corresponds to net debt divided by total equity. Net debt is calculated as total borrowings (including current and non-current borrowings as shown in the consolidated balance sheet) less cash and cash equivalents and restricted financial investments. Total capital is calculated as equity as shown in the consolidated balance sheet plus net debt.

The gearing ratios at June 30, 2014 and December 31, 2013 were as follows:

|   | <b>Consolidated</b>  |                          |

- (i) "Land - judicial deposits" is represented by the amount deposited in escrow as a result of lawsuits in progress, filed due to documentation issues and disagreements on the amounts related to the expropriation of areas required for the installation of plants (Santa Laura, Santa Rosa, Monel and Moinho), as approved by the National Electric Energy Agency (ANEEL) (declaration of public utility for expropriation purposes). The legal advisors responsible for monitoring the lawsuits classify the likelihood of a favorable outcome in these cases as probable.

The balance of the parent company property, plant and equipment totaled R\$ 477 at June 30, 2014 (R\$ 501 at December 31, 2013). The depreciation for 2014 was R\$ 43.

The long-term financing agreement between Desenvix Bahia Wind Farm and BNB, based on fixed interest rates, provides for non-default bonuses of 25% on financial charges. This bonus is granted on payments of interest or principal and interest up to the maturity dates established in the financing agreement. If the payment conditions are complied with, the prefixed financial charges will be reduced from 9.5% p.a. to 7.125% p.a.

All the restrictive conditions in the financing agreements (covenants) entered into with the BNB have been complied with.

#### (iii) Construction financing – China Development Bank (CDB)

At June 30, 2014, the Group presented a balance not yet due amounting to R\$ 98,308, (R\$ 108,630 at December 31, 2013) with the China Development Bank (CDB).

Energen entered into a financing agreement with CDB amounting to US\$ 50,000 thousand (R\$ 102,049) for the implementation of the EOL Barra dos Coqueiros Wind Power Plant. This financing will be repaid in 29 semiannual consecutive installments, bearing interest equivalent to the London Interbank Offered Rate (LIBOR) (US\$ - 6 months) plus 5.10% p.a.

In addition to this financing agreement, the following guarantee agreements were signed: (i) statutory lien on Energen shares held by Desenvix and Água Quente; (ii) assignment of credit rights; (iii) statutory lien on assets and equipment; and (iv) conditional assignment of contracts as guarantees.

#### (iv) Debentures

##### First Issue of a single series of simple, unsecured debentures, non-convertible into shares, with additional collateral

The Company issued 100 thousand debentures at a face value of R\$ 1 thousand each on December 12, 2012. Financial charges will be paid in 8 semiannual installments, beginning on June 12, 2013 and ending on the maturity date of the debentures. The principal will be repaid in 5 semiannual consecutive installments, beginning on December 12, 2014 and ending on the maturity date of the debentures. The debentures fall due on December 12, 2016.

At a Meeting held on April 30, 2014, the Debenture Holders approved the second amendment to the public deed of the aforementioned issue, waiving the restrictive covenants and altering the

remuneration, which, as from May 1, 2014, started to be paid based on the accumulated variation of 100% of the daily Interbank Deposit (DI) rates, plus a spread of 3.75% (2.80% up to April 30, 2014) p.a.

The debenture agreement in force establishes the early maturity of the total obligation if a series of requirements are not met, including the failure to comply with certain financial ratios for three alternate quarters. According to the second amendment to the agreement, the beginning of the measurement and compliance with these ratios occur as from April 1, 2014. The ratios required and the result obtained at June 30, 2014 can be summarized as follows:

| Description of the ratio                       | Agreement ratio   | Ratio obtained |
|--|---|----------------|
| Total Debt/Dividend Income (Parent Company)    | Considered breach of covenants if the ratio is: greater than 4.0x from April 1, 2014 to March 31, 2015; greater than 3.5x from April 1, 2015 to December 31, 2015; greater than 3.0x from January 1, 2016 to June 30, 2016; and greater than 2.5x as from July 1, 2016. | 3.3            |
| Total Debt/Equity (Consolidated)               | Considered breach of covenants if the ratio is: greater than 1.45x.   | 1.30           |
| Debt Service Cover Ratio (ICSD) (Consolidated) | Considered breach of covenants if the ratio is: lower than 1.0x as from April 1, 2014.  | 1.7            |

### **Second issue of a single series of simple, unsecured debentures, non-convertible into shares, with personal guarantee and additional collateral, under suspensive condition, for public offering with restricted efforts**

The Company issued 45 debentures at a face value of R\$ 1,000 thousand each on June 9, 2014, which will be remunerated at the accumulated variation of 100% of the daily Interbank Deposit (DI) rate, plus a spread of 2.85% p.a. Financial charges will be paid in 10 semiannual installments, beginning on November 26, 2014 and ending on the maturity date of the debentures. The principal will be repaid in 4 annual consecutive installments, beginning on May 16, 2016 and ending on the maturity date of the debentures. The debentures fall due on May 26, 2019. The first three amortizations of the principal amount will each represent 22.23% of the unit par value, whereas the fourth and last portion will individually represent 33.31% of the unit par value.

In guarantee of the full, timely payment of all debenture-related obligations, whether principal or accessory: (a) the parent companies Jackson Empreendimentos S.A. and SN Power Brasil Investimentos Ltda. will provide guarantees in favor of the debenture holders, thereby assuming the position of individual debtors and main paying parties of all amounts payable by the Company, under the terms of

the Issue Deed, at the proportion of 50% each, up to the full payment of the Debentures; and (b) the credit rights arising from the distribution of dividends of certain companies in which the Company has an ownership interest, as well as the Company's credit rights arising from the ownership of a determined restricted bank account, which cannot be operated by the Company, will be assigned on a fiduciary basis, and the fiduciary assignment in guarantee of the credit rights arising from the distribution of dividends will be realized under a suspensive condition.

#### **(v) Working capital financing**

The financial charges are payable in 12 monthly installments, beginning on October 11, 2013 and ending on September 11, 2014, and the principal is payable in a single installment maturing on the same date as the last payment of financial charges. A surety from Engevix Engenharia S.A. was provided as collateral for the total amount of the debt.

#### **13 Concessions payable**

The balance payable at June 30, 2014 amounted to R\$ 65,038 (R\$ 63,038 at December 31, 2013) and was represented by the obligation payable arising from the concession agreement with ANEEL for the exploration of the hydroelectric potential of UHE Alzir dos Santos Antunes (Monel Monjolinho Energética S.A.), adjusted to present value, considering an interest rate of 9.50%. The corresponding obligation will be paid in monthly installments, adjusted annually based on the General Market Price Index (IGP-M) rate variation, calculated by Fundação Getúlio Vargas. The payments started in September 2009, the date the plant became operational, and will end in April 2037.

The Alzir dos Santos Antunes hydroelectric power plant (Monel Monjolinho Energética S.A.) was auctioned by ANEEL in September 2001 and the related concession agreement was signed in April 2002, with the plant starting operations in September 2009. The concession agreement includes, but is not limited to, the following provisions: in order to use the public asset, the investee shall pay to the Federal Government, as from the date in which the first hydroelectric generator unit begins its operations up to the end of the concession period, monthly installments equivalent to 1/12th of the proposed annual payment of R\$ 2,400 (R\$ 72,000 during the concession period, after the beginning of operations), restated by the General Market Price Index (IGP-M) variation compiled by Fundação Getúlio Vargas, based on the index for the month prior to the auction date. At the end of the concession period, if there is no extension, the assets and installations linked to the utilization of the hydroelectric resources will be transferred to the Federal Government's assets through indemnification for investments made, as long as the investments have been previously approved and not yet amortized, as determined by an audit carried out by ANEEL.

#### 16 Provision for electric power contracts

At the end of 2012, Enercasa recognized R\$ 11 million in its results as a penalty due to the lack of supply of the contracted power. In accordance with Order 1,516, of May 14, 2013, ANEEL, in a preliminary decision, rejected the application of a penalty referring to the failure to supply the electric power contracted for 2012. It also determined that the Electric Energy Trade Chamber (CCEE) retain Enercasa's fixed income, as from February 2013 (referring to January 2013).

At the third Public Meeting of the Board of ANEEL, held on February 4, 2014, the members approved the proposal for the standardization of clause 14 of the Reserve Power Agreements (CER), in accordance with ANEEL Normative Resolution 600, of February 4, 2014, referring to the criteria for the calculation of penalties due to the failure to supply the electric power contracted. As from that date, the Company established a penalty of 15% referring to the failure to supply the electric power contracted in 2012 and 2013, amounting to R\$ 9,606 at June 30, 2014 (R\$ 7,425 at December 31, 2013). The Company has been establishing a penalty provision in respect of 2014, on a monthly basis, the total amount of which amounted to R\$ 2,181 at June 30, 2014.

Since ANEEL denied the request to consider “force majeure”, as per Order 1,717, of June 3, 2014, Enercasa filed a lawsuit against ANEEL, the object of which was to recognize the existence of force majeure and acts of God events as regards the Reserve Power Agreements (CER), relating to the problems faced by Enercasa arising from the non-provision of fuel for generation. If the reasons for exclusion of liability are accepted, Enercasa's liabilities in relation to the CER would be eliminated for the period covered by the force majeure or acts of God events, without the levy of penalties (Clause 13 of the CER). On July 21, 2014, an injunction was issued in favor of Enercasa, suspending the payment of the penalties up to the judgment of the merit.

#### **17 Equity**

##### **(a) Share capital**

At the Extraordinary Meeting of December 11, 2013, the stockholders approved a capital increase in Desenvix of R\$ 60,000, to be paid in two installments of R\$ 30,000, the first on February 5, 2014 and the second on December 5, 2014.

The Company's subscribed capital at June 30, 2014 comprised 117,001,722 registered common shares with no par value.

##### **(b) Carrying value adjustments**

## Desenvix Energias Renováveis S.A.

### Notes to the parent company and consolidated interim quarterly information

at June 30, 2014

All amounts in thousands of reais unless otherwise stated

The Company estimates that, after 2018, the remaining balance of tax losses of the companies, the foreign exchange variations on the financing in U.S. dollars with the China Development Bank (CDB) of the subsidiary Energen, and also of the temporary differences between the regulatory (ANEEL) and corporate (CPC 27) depreciation rate will be realized.

**(c) Provisional Measure (MP) 627, of November 11, 2013, converted into Law 12,973/2014**

Provisional Measure (MP) 627/13 changes the tax legislation related to the federal taxes and contributions and repeals the Transitional Tax System (RTT), established by Law 11,941/09, among other provisions. The aforementioned MP will be in effect as from the calendar year 2015 and entities can voluntarily opt for adoption as from the calendar year 2014. The Company will not adopt Law 12,973 on an early basis.

Management, based on preliminary analyses of the possible effects arising from the application of the MP, understands that the Company's tax burden will not increase in relation to the legislation in force.

Tax losses can be carried forward indefinitely to be offset against future taxable income, limited to 30% of annual taxable income.

## 22 Insurance and guarantees

**(a) Bank guarantee letters and collaterals**

The Company contracted bank guarantee letters for financing arrangements, lawsuits in progress and others, the most significant being as follows:

| <u>Bank</u> | <u>Guarantees and sureties</u> | <u>Amount of the debt</u> |
|-------------|--------------------------------|---------------------------|
| BNDES       | Bank guarantee letter          | 30,371                    |

### **Notes to the parent company and consolidated interim quarterly information**

**at June 30, 2014**

#### **(c) Corporate guarantee of the controlling stockholders**

At the meeting held on June 27, 2012, the Company's Board of Directors authorized Desenvix to make a payment to Jackson/Engevix as a fee for the sureties and guarantees provided. According to the proposal, Desenvix will pay 1.0% for the bank guarantees and 0.5% for the performance bonds at the end of each financial year. The total amount guaranteed by Jackson/Engevix is R\$ 416,560. The amount provisioned as payable in 2014 related to these guarantees and sureties was R\$ 2,090 in the parent company.

#### **23 Financial instruments**

The Company and its subsidiaries did not have off-balance sheet financial instruments at June 30, 2014, nor did they contract derivative financial instruments (swap, currency or index swaps, and hedges, among others).

The Company has various financial instruments, mainly cash and cash equivalents, trade receivables, financial investments, trade payables and financing.

##### **23.1 Financial risk factors**

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on its financial performance.

Risk management is carried out by a central treasury department under policies approved by the Board of Directors. The treasury department identifies, evaluates and hedges financial risks in close co-operation with the operating units. The Board provides overall principles for risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments, and investment of surplus liquidity.

##### **(a) Market risk**

###### **(i) Foreign exchange risk**

At June 30, 2014, the Desenvix Group had liabilities in foreign currency related to the debt of the subsidiary Energen Energias Renováveis S.A. (Note 12(iii)), thereby exposing it to foreign exchange risk.

This risk is associated with the fluctuations of the U.S. dollar in relation to the functional currency used by Desenvix (the Brazilian real). Currently, the Company does not use any financial instrument to hedge its results against the risk of foreign exchange variations, but these variations are being monitored on a timely basis, in order to determine whether contracting hedge or swap transactions is required.

#### (ii) Cash flow and fair value interest rate risk

As the Group has no significant interest-earning assets, its income and operating cash flows are substantially independent of changes in market interest rates.

This risk arises from the possibility that the Group could incur losses due to fluctuations in interest rates which increase the finance costs related to borrowings obtained in the market. Desenvix has entered into financing contracts with interest rates indexed to the Long-term Interest Rate (TJLP) and Interbank Deposit Certificate (CDI) rate and continuously monitors market interest rates to assess the need to enter into transactions to hedge against the volatility risk of these rates.

#### (b) Liquidity risk

This relates to the risk of the Group having insufficient liquidity to meet its financial commitments, due to the mismatch of terms or volume between expected receipts and payments.

To manage liquidity of cash, assumptions for future disbursements and receipts are determined, and these are monitored periodically by the treasury area.

The table below summarizes the Group's non-derivative financial liabilities by maturity groupings based on the remaining period from the balance sheet date up to the contractual maturity date. The amounts disclosed in the table below are the undiscounted cash flows.

#### (c) Risk of accelerated maturity of financing

## Desenvix Energias Renováveis S.A.

### Notes to the parent company and consolidated interim quarterly information

at June 30, 2014

All amounts in thousands of reais unless otherwise stated

This risk arises from possible non-compliance with the restrictive covenants of the financing agreements entered into with BNDES, CDB, BNB and in respect of the Debentures (Note 12), which, in general, require the maintenance of financial ratios at certain levels. The Group's management regularly monitors these financial ratios, with a view to taking the necessary actions to ensure that the maturity of the financing contracts will not be accelerated.

#### (d) Sensibility analysis

Pursuant to CVM Instruction 475/08, a sensitivity table is presented, which shows the sensitivity analysis of financial instruments, and discloses the effects on monetary variations and financial expenses calculated based on the estimated scenario at December 31, 2013 and June 30, 2014, in the event variations occur in the risk components. Simplifications were utilized to segregate the variability in the risk factor under analysis. Consequently, the estimates presented below do not necessarily present the amounts that could be determined in future financial statements. The use of different assumptions and/or methodologies could have a material effect on the estimates presented.

#### (i) Methodology applied

Based on the balances of amounts exposed to risk, as shown in the tables below, and assuming that these amounts are held constant, the interest differential is estimated for each scenario.

For the evaluation of the amounts exposed to interest rate risk, only the risks related to the financial statements were considered, i.e., segregating and excluding the fixed interest factors since they do not represent a risk to the financial statements because of variations in the economic scenarios. The probable scenario is based on the Company's estimates, which are in line with the projections presented in the Focus report issued by the Brazilian Central Bank (BACEN), at December 31, 2013, for each of the variables indicated. Additionally, the positive and negative stress variations of 25% and 50% were applied to the rates projected for December 31, 2014.

Desenvix does not have any positions in the derivatives market.

#### (e) Fair value estimation

The carrying values of trade receivables and payables, concessions payable and related parties, less the impairment provision, when applicable, are assumed to approximate their fair values.

The fair value of restricted financial investments (Note 7) and borrowings (Note 12) approximates their carrying amount. The table below classifies financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- (i) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- (ii) Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- (iii) Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table presents the Group's assets that were measured at fair value as at June 30, 2014.

The Company has investments in Companhia Energética Rio das Antas (5%) and Dona Francisca Energética S.A. (2.12%), in respect of which it has no significant influence over the companies, recorded at fair value in the respective amounts of R\$ 58,740 and R\$ 7,937. The Company prepared the future cash flows to evaluate the value of the investments taking into consideration the date of termination of the concession agreement. The concession period could be extended for another 20 years after the end of the first concession period. However, the authorization of third parties is required for the renewal of the concession. Therefore, the possible extension could result in amounts different from those currently recorded.

#### 24 Other operational risks

##### (a) Hydrological risk

This risk arises from the possibility of an extended period of drought. Pursuant to Brazilian regulations, revenue from electric energy sales by the generating companies does not depend directly on the energy actually produced, but on the amount of electric energy and capacity sold by them, limited to the assured energy, the amount of which is fixed and determined by the concession authority and is included in the authorization issued by it, and any subsequent amendments.

Differences between energy generated and assured energy are covered by the Energy Reallocation Mechanism (MRE), the main purpose of which is to mitigate the hydrologic risks ensuring that all the participating generating plants receive their income from the amount of assured energy sold, regardless of the amount of electric energy actually generated by them.

##### (b) Risk of not having the authorization or concession extended

The subsidiaries have, in the case of PCHs, authorization to develop and operate electric energy generation services, without any payments related to the use of public assets, and there is also a concession agreement related to the UHE Monel which does establish payments for the use of public assets (Note 13). If the extension of the authorization or the concession agreement is not approved by the regulatory agencies or is subject to additional costs imposed on the companies, the current profitability and activity levels could be reduced. There can be no guarantee that the authorization or concession granted to subsidiaries will be extended, upon maturity, by the concession authority.

#### 25 Contingencies

The Company and its subsidiaries do not have contingencies for which a future disbursement is considered probable and there are no provisions regarding the amounts relating to these processes, which are only mentioned in the Notes.

the income tax returns of the Company and its subsidiaries are subject to review and final approval by the tax authorities for variable periods of time and possible additional assessments.

The Group is subject to federal, state and municipal environmental laws and regulations, and complies with them. Therefore, management does not expect to incur restoration costs or fines of any nature.

Operating licenses establish certain conditions and restrictions in relation to the environment, which are complied with by the Company and its subsidiaries.

#### 26 Basic and diluted earnings (loss) per share

The basic earnings (loss) per share is calculated by dividing the profit or loss attributable to the stockholders of the Company by the average number of shares outstanding during the period. The Company has no common share categories with dilutive effects and, therefore, the basic and diluted earnings (loss) per share are the same.

Outstanding shares, in accordance with the relevant accounting standards, refer to the total shares issued by the Company less the shares held in treasury, when applicable.

#### 27 Investment properties

In order to obtain from ANEEL the authorizations or permits for the future implementation of PCHs, for which it has been developing studies related to inventories and the basic projects, the Company is purchasing, in advance, land in the areas where the future PCHs will be built (areas to be affected by the reservoir), which is one of the conditions for the selection and prioritization of interested parties. The purchase totaled R\$ 25,208 (the same as 2012).

The amounts recorded for properties approximate their fair values, since they were realized in the past few years.

#### 28 Investments in non-subsidiary entities at fair value

The investments in non-subsidiary entities at fair value comprise investments not generating significant influence in Companhia Energética Rio das Antas (interest in capital of 5%) and Dona Francisca Energética S.A. (interest in capital of 2.12%). The investment amounts at June 30, 2014 were R\$ 58,740 and R\$ 7,937, respectively (the same as at December 31, 2013).
